

PATIENTS' RECORD CARDS

Association
of Optometrists

In consultation with members we have designed and printed a record card system to assist optometrists to keep patients' records in accordance with best practice.

It is important that clear and concise records are made and retained both for your own information and for that of the patient who is entitled to see them.

In order to assess their value to your practice, we enclose a sample set - envelope, dispensing record, and clinical record.

Each item may be purchased individually in packs of 500:

<u>Order number</u>	<u>Item</u>	<u>Price (incl. p. & p.)</u>	<u>Quantity</u>	<u>Order Cost</u>
DRE98	Envelopes	£125		£ ____
DRC98	Dispensing Record	£50		£ ____
DCL98	Clinical Record	£65		£ ____

Special Offer: £205 (normal price £240) when you purchase all three together - 500 envelopes, 500 dispensing records, and 500 clinical records.

ORDER FORM	
Practice Name	_____
Practice Address	_____ _____
	_____ Post Code _____
